

Department of Pathology
Postdoc Associate Position

Yale University School of Medicine, Department of Pathology is seeking one (1) postdoctoral associate in the Computational Laboratory for Immunology and Pathology (CLIP). The successful candidate will develop and apply computational methods/models and bioinformatics approaches to disease processes and the immune response in close collaborations with experimentalists. The ideal candidate will have strong quantitative and programming abilities, along with a demonstrated interest in applying these skills to problems in biology.

Interested candidates should forward a CV and short description of research interests together with the names and addresses of three references to:

steven.kleinstein@yale.edu
