SCHOOL OF PUBLIC HEALTH

CURRICULUM
GUIDE 2023-24

Every effort is made to ensure the information contained in this guide is accurate at the time of printing and posting. However, the curriculum, including degree requirements, courses, faculty, and program policies are subject to modification as deemed necessary by the Harvard T.H. Chan School of Public Health and/or the Department of Environmental Health to provide students with the most meaningful educational experience and to remain current with professional standards and guidelines.

About the Master of Science 80 Credit (SM2) Degree in Environmental Health

Introduction

The Harvard Chan School Master of Science program will prepare you to make an impact in the laboratory, field, or the policy arena. Indeed, Harvard Chan Master of Science graduates play leading roles in top academic and research institutions, pharmaceutical and biotechnology companies, health care organizations, national and international government agencies, nongovernmental organizations, and other public and private sector enterprises. During their time at the Chan School, Master of Science students learn to address critical scientific and health challenges that affect the lives of individuals and entire populations. They build expertise in an area of specialization while gaining the perspective of multiple public health disciplines. You will learn a powerful set of analytical, technical, and quantitative skills that can be applied flexibly in a wide range of career paths. As a Harvard Chan School Master of Science student, you will learn to contribute to the scientific understanding of public health through original laboratory and/or field research, to critically evaluate scientific literature, and to apply scientific knowledge in real-world settings.

General Information

Areas of Interest

These are the Areas of Interest listed in the SOPHAS application.

- ***Environmental Health Environmental Justice*** focuses on the disparities in environmental exposure and associated health outcomes, considering macro- and micro-level factors that impact communities and strategies for solution-oriented approaches, including discussion of research translation, implementation science, environmental health literacy, and other key topic areas. Theoretical frameworks, analytic approaches, and practical applications will be addressed in the context of sociohistorical processes, stakeholders, and agency that can be learned from and engaged with to improve environmental health inequities.
- ***Environmental Health Epidemiology*** focuses on identifying and measuring the influence of physical, chemical, and biological environmental factors on human disease in communities to provide scientific evidence for sound environmental and health policies.
- ***Environmental Health Exposures*** emphasizes the chemical, physical, microbiological, and engineering aspects of environmental and occupational exposures and the identification and characterization of human and ecological exposures to environmental contaminants, and in modeling their fate and transport, to develop strategies to control environmental hazards, allergens, and pathogens.
- ***Environmental Health Occupational Health*** focuses on workplace and environmental hazards, the physiological and biomechanical aspects of work, the risks posed by the interaction of genetic and environmental factors, and a practical approach to solving health problems in various work and community settings. This program is designed for physicians and other professionals who intend to practice occupational medicine or to hold responsible positions in occupational policy and management.

- ***Environmental Health Risk Sciences*** focuses on integrated education in risk and decision science in the context of environmental health - including exposure assessment, epidemiology and toxicology - built on the principles of decision analysis and intended to support and advance decision making under uncertainty.

Master of Science Competencies

- Critically evaluate and apply principles of epidemiologic methods, including exposure and outcome measures, measures of association, bias and confounding, and study design options.
- Interpret and discuss the biologic aspects of public health issues.
- Apply environmental exposure assessment methods that are utilized to estimate human exposures to environmental and occupational hazards.

Registration

All full-time students are expected to register for **20 credits per semester**: Fall and Spring. Part-time students may register for up to 14.75 credits each semester. Semesters are comprised of:

Fall

- Full Fall
- Fall 1
- Fall 2

Spring

- Winter/January Session
- Full Spring
- Spring 1
- Spring 2

Required Courses for the Department of Environmental Health Master of Science Degree Program

EH required courses can include, but are not limited to, those listed below – consult your specific Area of Interest below for all course requirements. All required courses must be taken for an ordinal grade.

- *ID 100 Foundations for Public Health*
- *EH 205 Human Physiology*
- *EH 263 Analytical Methods and Exposure Assessment*
- *EH 504 Principles of Toxicology*
- *EH 508 Master's Thesis and Collaborative Research in Environmental Health*

- *EH 510 Fundamentals of Human Environmental Exposure Assessment*
- *RDS 500 Risk Assessment*
- *EPI 201 Introduction to Epidemiology: Methods I (and required lab)*
- *EPI 202 Epidemiologic Methods 2: Elements of Epidemiologic Research (and required lab)*
- *At least 10 credits of Biostatistics coursework – consult with your advisor [BST 201 Introduction to Statistical Methods (and required lab) can count as 5 of those credits]*

Forms

Students may locate all required forms in the [Master of Science Student Tool Kit](#). Students should speak with their advisor, Barbara Zuckerman (bzuckerm@hsph.harvard.edu), Rose West (rwest@hsph.harvard.edu) and/or Shaun Heller (shaunheller@hsph.harvard.edu) before completing any forms. Submit completed forms via email to Barbara Zuckerman and cc your advisor and any other faculty whose signature is required. In that email ask your advisor and other faculty to email Barbara with permission to sign the form on their behalf.

Requests to Waive School-wide and/or Department Required Courses

Waiving a required course **does not** transfer any credits. If you waive a required course, it means you do not have to retake that course to fulfill your degree requirements.

Waiving Department of Environmental Health Required Courses

EH required courses can include, but are not limited to, those listed below. All required courses must be taken for an ordinal grade.

- *EH 205 Human Physiology*
- *EH 504 Principles of Toxicology*
- *EH 510 Fundamentals of Human Environmental Exposure Assessment*
- *RDS 500 Risk Assessment*

To waive these courses, complete the [Department of Environmental Health Waiver Form](#).

Include with the form:

- A copy of the syllabus of the course(s) you took that you believe fulfill this requirement and has covered the course content of the department course.
- An unofficial copy of your transcript indicating the grade you received in this course.

Email the completed waiver form and related documentation to your advisor and Barbara Zuckerman (bzuckerm@hsph.harvard.edu). Ask your advisor to email Barbara with permission to sign the form on their behalf. Barbara will contact the instructor who will evaluate your request and she will let you know the waiver request decision.

Waiving Biostatistics and/or Epidemiology Core Course Requirement

Students who have previously completed a graduate-level Biostatistics and/or Epidemiologic Methods course go to the following link for additional information about requesting a waiver of the biostatistics and/or epidemiology core course requirement:

<https://www.hsph.harvard.edu/epidemiology/waiving-school-wide-biostatistics-and-epidemiology-core-course-requirement/>

To complete the waiver form, go to [Survey link](#)

The respective departments will determine if the previous coursework is equivalent to the Harvard Chan School-Wide Core Courses.

Statistical Methods/Analyses Requirements – Master of Science Thesis

Statistical methods are a key part of the Master of Science thesis requirement and should.

1. Must be analyses that can be done within one year.
2. Original work on their part.
3. Must have an environmental component.
4. Can be working as a member of a team – need to be specific about their participation in the team.
5. Primary responsibilities for writing the thesis is the student.

Master of Science (80 credits) SM2: Areas of Interest – Curricular Requirements

- Environmental Health Environmental Justice
- Environmental Health Epidemiology
- Environmental Health Exposures
- Environmental Health Occupational Health
- Environmental Health Risk Sciences

Year 1 Fall - Environmental Health Environmental Justice								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Summer / Fall 1	ID 100	Foundations for Public Health	1					
Fall	BST 201* <i>or</i> BST 210 <i>or</i> BST 213	Introduction to Statistical Methods <i>or</i> Applied Regression Analysis <i>or</i> Applied Regression for Clinical Research	5	Tu/Th <i>or</i> Tu/Th <i>or</i> M/W	3:45-5:15 <i>or</i> 11:30-1:00 <i>or</i> 8:00-9:30			BST 201 Additional Lab Required BST 210 Additional Lab Required. BST 210 also offered in the Spring
Fall 1	EPI 201*	Introduction to Epidemiology: Methods I	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall 2	EPI 202*	Epidemiologic Methods 2: Elements of Epidemiologic Research	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall 1	SBS 201 <i>or</i>	Society and Health <i>or</i>	2.5	M/W	3:45 -5:15			Additional Lab Required
Fall 2	SBS 207 <i>or</i>	Race, Ethnicity and Health: Perspectives from the Social and Behavioral Sciences <i>or</i>	2.5	Tu	3:45-6:45			
Fall 1	SBS 506	An Intro to History, Politics & Public Health: Theories of Disease Distr. & Health Inequities	2.5	F	9:30-12:30			
Fall	EH 205**	Human Physiology	5	M/W	9:45-11:15			
Fall 2	EH 510**	Fundamentals of Human Environmental Exposure Assessment	2.5	Tu/Th	2:00-3:30			
Fall 1	RDS 500**	Risk Assessment	2.5	Tu/Th	2:00-3:30 1:00-3:30			
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								
*To waive these courses see “Waiving Biology and/or Epidemiology Core Course Requirements” above; **To waive these courses see “Waiving Department of Environmental Health Required Courses” above								

--

Year 1 Spring - Environmental Health Environmental Justice								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 257 <i>or</i> EH 297	Water Pollution <i>or</i> Atmospheric Environment	5	T/Th <i>or</i> W/F	9:45-11:15 11:30-1:00			Can be taken in Year 1 or Year 2
Spring 1	EH 525	Environmental Justice: Concepts and Practice	2.5	M	9:45-1:00			
Spring	ID 215	Environmental and Occupational Epidemiology	2.5	W	2:00-3:30			Can be taken in Year 1 or Year 2
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research
<i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i> <i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i>								
Over the course of your studies, students should take at least 5 credits worth of coursework from the options below – consult with your advisor. See the elective list for additional courses that might be of interest.								
Fall	SBS 245	Social and Behavioral Research Methods	5	F	2:00 – 5:00			
Fall 1	SBS 201	Society and Health	2.5	M/W	3:45 -5:15			Additional Lab Required
Fall 1	SBS 288	Qualitative Research Methods in Public Health	2.5	F	9:45 – 12:45			
Fall 2	EH 245	Statistical Methods for Environmental Mixtures and Exposome Research	2.5	W/F	11:30-1:00			
Fall 2	SBS 207	Race, Ethnicity and Health: Perspectives from the Social and Behavioral Sciences	2.5	Tu	3:45-6:45			
Fall 2	SBS 521	Qualitative Data Analysis for Public Health	2.5	Tu/Th	11:30-1:00			

January	EH 286	Environmental Health Literacy and Science Communication	2.5	M/Tu/W/Th	9:00-12:00			
Spring 1	SBS 220	Social and Structural Inequities and Children's Health	2.5	Tu/Th	2:00-3:30			
Spring 1	SBS 522	Multi-Level Theoretical Approaches to Population Health and Health-Related Behavior Change	2.5	M/W	2:00-3:30			Conflicts with ID215 in Spring 1 st year; no conflicts 2 nd year
<i>Also due in Spring of Year 1 - Thesis Topic Identification: Choose a mentor and identify a topic.</i>								
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								

Year 2 Fall - Environmental Health Environmental Justice								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Fall	EH 263	Analytical Methods and Exposure Assessment	5	T/Th	3:45-5:15			
Fall	EH 504	Principles of Toxicology	5	M/W	9:45-11:15			Section 2
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research
<p><i>Also due in Fall of Year 2 - Thesis Proposal: Complete and submit Thesis Proposal Form</i> <i>An additional approved 5.0 credits of intermediate biostatistics course(s if not already taken).</i> <i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p>								
<p>Over the course of your studies, students should take at least 5 credits worth of coursework from the options below – consult with your advisor. <i>See the elective list for additional courses that might be of interest.</i></p>								
Fall 1	SBS 201	Society and Health	2.5	M/W	3:45 -5:15			Additional Lab Required
Fall	SBS 245	Social and Behavioral Research Methods	5	F	2:00 – 5:00			
Fall 1	SBS 288	Qualitative Research Methods in Public Health	2.5	F	9:45 – 12:45			
Fall 2	EH 245	Statistical Methods for Environmental Mixtures and Exposome Research	2.5	W/F	11:30-1:00			
Fall 2	SBS 207	Race, Ethnicity and Health: Perspectives from the Social and Behavioral Sciences	2.5	Tu	3:45-6:45			
Fall 2	SBS 521	Qualitative Data Analysis for Public Health	2.5	Tu/Th	11:30-1:00			
January	EH 286	Environmental Health Literacy and Science Communication	2.5	M/Tu/W /Th	9:00-12:00			

Spring 1	SBS 220	Social and Structural Inequities and Children's Health	2.5	Tu/Th	2:00-3:30			
Spring 1	SBS 522	Multi-Level Theoretical Approaches to Population Health and Health-Related Behavior Change	2.5	M/W	2:00-3:30			Conflicts with ID215 in Spring 1 st year; no conflicts 2 nd year
<i>Electives courses chosen in consultation with your advisor.</i>								
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research

Year 2 Spring - Environmental Health Environmental Justice								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 257 <i>or</i> EH 297	Water Pollution <i>or</i> Atmospheric Environment	5	Tu/Th <i>or</i> W/F	9:45-11:15 11:30-1:00			Can be taken in Year 1 or Year 2
Spring	EH 508	Master's Thesis and Collaborative Research in Environmental Health	5	W	3:45-7:00			
Spring	EH 291	Community Practice in Environmental Health	5	F	8:00 – 11:15			
Spring 2	SBS 210	Introduction to Dissemination and Implementation Science	2.5	Tu/Th	11:30-1:00			
Spring 1	SBS 535	Global Perspectives on Racism, Poverty, and Power	2.5	M/W	9:45-11:15			
<i>An additional approved 5.0 credits of intermediate biostatistics courses if not already taken.</i> <i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i>								
Over the course of your studies, students should take at least 5 credits worth of coursework from the options below – consult with your advisor. See the elective list for additional courses that might be of interest. NOTE: Elective courses chosen in consultation with your advisor.								
Fall 1	SBS 201	Society and Health	2.5	M/W	3:45 -5:15			Additional Lab Required
Fall	SBS 245	Social and Behavioral Research Methods	5	F	2:00 – 5:00			
Fall 1	SBS 288	Qualitative Research Methods in Public Health	2.5	F	9:45 – 12:45			
Fall 2	EH 245	Statistical Methods for Environmental Mixtures and Exposome Research	2.5	W/F	11:30-1:00			
Fall 2	SBS 521	Qualitative Data Analysis for Public Health	2.5	Tu/Th	11:30-1:00			
January	EH 286	Environmental Health Literacy and Science Communication	2.5	M/Tu/ W/Th	9:00-12:00			
Spring 1	SBS 220	Social and Structural Inequities and Children's Health	2.5	Tu/Th	2:00-3:30			
Spring 1	SBS 522	Multi-Level Theoretical Approaches to Population Health and Health-Related Behavior Change	2.5	M/W	2:00-3:30			Conflicts with ID215 in Spring 1 st year; no conflicts 2 nd year

Environmental Health Environmental Justice Electives									
School	Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
HSPH	Spring 2	EH278	Human Health and Global Environmental Change	2.5	Tu/Th	2:00 - 3:30			
GSD	Fall Full Term	DES 3348	The Idea of Environment	5	F	9:00-11:45			
HKS	Fall Full Term	IGA 385	Strategizing for Human Rights: Moving from Ideals to Practice	5	Tu/Th	12:00-1:15			
HKS	Fall Full Term	IGA 513	Science, Power, and Politics	4	W	2:00-4:00

SM2 80 in Environmental Health Epidemiology								
Year 1 Fall - Environmental Health Epidemiology								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Summer / Fall 1	ID 100	Foundations for Public Health	1					
Fall	BST 201* <i>or</i> BST 210 <i>or</i> BST 213	Introduction to Statistical Methods <i>or</i> Applied Regression Analysis <i>or</i> Applied Regression for Clinical Research	5	Tu/Th <i>or</i> Tu/Th <i>or</i> M/W	3:45-5:15 <i>or</i> 11:30-1:00 <i>or</i> 8:00-9:30			BST 201 Additional Lab Required BST 210 Additional Lab Required. BST 210 also offered in the Spring
Fall 1	EPI 201*	Introduction to Epidemiology: Methods I	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall 2	EPI 202*	Epidemiologic Methods 2: Elements of Epidemiologic Research	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall	EH 205**	Human Physiology	5	M/W	9:45-11:15			
Fall 2	EH 510**	Fundamentals of Human Environmental Exposure Assessment	2.5	Tu/Th	2:00-3:30			
Fall 1	RDS 500**	Risk Assessment	2.5	Tu/Th	2:00-3:30 1:00-3:30			
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								

*Students who believe they have taken coursework that fulfills the school requirements for BST 201 and/or EPI 201 or EPI 202, see the section on waiving these courses above.

**Students who believe they have taken coursework that fulfills the EH Department requirements for EH 205, EH 510, RDS 500 or any other EH required course, see the section on waiving department courses above and complete the *EH Department Waiver Form*.

Year 1 Spring - Environmental Health Epidemiology								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 257 <i>or</i> EH 297	Water Pollution <i>or</i> Atmospheric Environment	5	Tu/Th	9:45-11:15			
			5	W/F	11:30-1:00			
Spring	ID 215	Environmental and Occupational Epidemiology	2.5	W	2:00-3:30			
Spring 2	EPI 203	Study Design in Epidemiologic Research	2.5	Tu/Th	3:45-5:15			
<p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p><i>Over the course of your degree program, take an additional approved 2.5 credit <u>substantive epidemiology course</u> which could include <u>but are not limited</u> to one of the following. Consult with your advisor.</i></p>								
Spring 1	EPI 213	Epidemiology of Cancer	2.5	Tu/Th	2:00-3:30			
	<i>or</i>							
Spring 2	EPI 223	Cardiovascular Epidemiology I	2.5	M/W	2:00-3:30			
	<i>or</i>							
Fall 2	EPI 269	Reproductive and Perinatal Epidemiology I	2.5	Tu/Th	2:00-3:30			
<p><i>Also due in Spring of Year 1 - Thesis Topic Identification: Choose a mentor and identify a topic.</i></p> <p><i>NOTE: Elective courses chosen in consultation with your advisor.</i></p>								

Year 2 Fall - Environmental Health Epidemiology								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Fall	EH 263	Analytical Methods and Exposure Assessment	5	Tu/Th	3:45-5:15			
Fall	EH 504	Principles of Toxicology	5	M/W	9:45-11:15			Section 2
<p><i>Also due in Fall of Year 2 - Thesis Proposal: Complete and submit Thesis Proposal Form</i></p> <p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p>								
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research

Year 2 Spring - Environmental Health Epidemiology								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
Required Courses								
Spring	EH 508	Master’s Thesis and Collaborative Research in Environmental Health	5	W	3:45-7:00			
Spring 1	ID 271	Advanced Regression for Environmental Epidemiology	2.5	Tu/Th	Tu 2:00-3:30 Th 1:00-3:30			
Total Required Credits								
<p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p><i>NOTE: Elective courses chosen in consultation with your advisor.</i></p>								

SM2 80 in Environmental Health Exposures

Year 1 Fall - Environmental Health Exposures

Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Summer / Fall 1	ID 100	Foundations for Public Health	1					
Fall	BST 201* <i>or</i> BST 210 <i>or</i> BST 213	Introduction to Statistical Methods <i>or</i> Applied Regression Analysis <i>or</i> Applied Regression for Clinical Research	5	Tu/Th <i>or</i> Tu/Th <i>or</i> M/W	3:45-5:15 <i>or</i> 11:30-1:00 <i>or</i> 8:00-9:30			BST 201 Additional Lab Required BST 210 Additional Lab Required. BST 210 also offered in the Spring
Fall 1	EPI 201*	Introduction to Epidemiology: Methods I	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall 2	EPI 202*	Epidemiologic Methods 2: Elements of Epidemiologic Research	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall	EH 205**	Human Physiology	5	M/W	9:45-11:15			
Fall 2	EH 510**	Fundamentals of Human Environmental Exposure Assessment	2.5	Tu/Th	2:00-3:30			
Fall 1	RDS 500**	Risk Assessment	2.5	Tu/Th	2:00-3:30 1:00-3:30			
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								

*Students who believe they have taken coursework that fulfills the school requirements for BST 201 and/or EPI 201 or EPI 202, see the section on waiving these courses above.

**Students who believe they have taken coursework that fulfills the EH Department requirements for EH 205, EH 510, RDS 500 and any other EH required courses, see the section on waiving department courses above and complete the *EH Department Waiver Form*.

Year 1 Spring - Environmental Health Exposures								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	ID 215	Environmental and Occupational Epidemiology	2.5	W	2:00-3:30			
Spring	EH 257	Water Pollution	5	Tu/Th	9:45-11:15			Take at least EH 257 or EH 297 in your first year. If you do not take both courses in Year 1, take the other course in Year 2. Consult with your advisor to decide what makes sense for you.
Spring	EH 297	Atmospheric Environment	5	W/F	11:30-1:00			Take at least EH 257 or EH 297 in your first year. If you do not take both courses in Year 1, take the other course in Year 2. Consult with your advisor to decide what makes sense for you.
<p>*Students must also take an approved environmental law/policy course. A course may be selected in consultation with your advisor*</p> <p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p>Also due in Spring of Year 1 - Thesis Topic Identification: Identify a topic, choose a mentor and start to develop an outline of proposed work</p>								
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								

Year 2 Fall - Environmental Health Exposures

Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Fall	EH 263	Analytical Methods and Exposure Assessment	5	Tu/Th	3:45-5:15			
Fall	EH 504	Principles of Toxicology	5	M/W	9:45-11:15			Section 2
<p style="text-align: center;"><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i> <i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p style="text-align: center;"><i>Also due in Fall of Year 2 - Thesis Proposal: Complete and submit Thesis Proposal Form</i></p> <p><i>*Reminder: If not fulfilled in Year 1, students must also take an approved environmental law/policy course. A course may be selected in consultation with your advisor*</i></p>								
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research

Year 2 Spring - Environmental Health Exposures

Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 257	Water Pollution	5	Tu/Th	9:45-11:15			If not already taken in Year 1.
Spring	EH 297	Atmospheric Environment	5	W/F	11:30-1:00			If not already taken in Year 1.
Spring	EH 508	Master's Thesis and Collaborative Research in Environmental Health	5	W	3:45-7:00			
<p style="text-align: center;"><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p style="text-align: center;"><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p style="text-align: center;">NOTE: <i>Elective courses chosen in consultation with your advisor.</i></p>								

SM2 80 in Environmental Health Occupational Health								
Year 1 Fall - Environmental Health Occupational Health								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Summer / Fall 1	ID 100	Foundations for Public Health	1					
Fall	BST 201* <i>or</i> BST 210 <i>or</i> BST 213	Introduction to Statistical Methods <i>or</i> Applied Regression Analysis <i>or</i> Applied Regression for Clinical Research	5	Tu/Th <i>or</i> Tu/Th <i>or</i> M/W	3:45-5:15 <i>or</i> 11:30-1:00 <i>or</i> 8:00-9:30			BST 201 Additional Lab Required BST 210 Additional Lab Required. BST 210 also offered in the Spring
Fall 1	EPI 201*	Introduction to Epidemiology: Methods I	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall 2	EPI 202*	Epidemiologic Methods 2: Elements of Epidemiologic Research	2.5	Tu/Th	9:45-11:15 <i>or</i> 11:30-1:00			Additional Lab Required
Fall	EH 205**	Human Physiology	5	M/W	9:45-11:15			
Fall 2	EH 510**	Fundamentals of Human Environmental Exposure Assessment	2.5	Tu/Th	2:00-3:30			
Fall 1	RDS 500**	Risk Assessment	2.5	Tu/Th	2:00-3:30 1:00-3:30			
<i>NOTE: Elective courses chosen in consultation with your advisor.</i>								

*Students who believe they have taken coursework that fulfills the requirements for EPI 201 and/or EPI 202, see the section on waiving courses.

**Students who believe they have taken coursework that fulfills the EH Department requirements for EH 205, EH 510, RDS 500 and any other EH required courses see the section on waiving courses and complete the EH Department *Course Waiver Form* and return it to Barbara (bzuckerm@hsph.harvard.edu) with required documentation.

Year 1 Spring - Environmental Health Occupational Health								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 231	Occupational Health Policy and Administration	2.5	M	3:45-5:15			
Spring	EH 236	Epidemiology of Environmental & Occupational Health Regulations	5	F	9:45-1:00			
Spring	ID 215	Environmental and Occupational Epidemiology	2.5	W	2:00-3:30			
Spring	ID 263	Practice of Occupational Health	5	W	8:00-11:15			
<p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p><i>Also due in Spring of Year 1 - Thesis Topic Identification: Identify a topic, choose a mentor and start to develop an outline of proposed work</i></p> <p><i>NOTE: Elective courses chosen in consultation with your advisor.</i></p>								

Year 2 Fall - Environmental Health Occupational Health								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Fall	EH 241	Occupational Safety and Injury Prevention	2.5	Th	5:30-7:00			
Fall	EH 263	Analytical Methods and Exposure Assessment	5	Tu/Th	3:45-5:15			
Fall	EH 504	Principles of Toxicology	5	M/W	9:45-11:15			Section 2
<p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p><i>Also due in Fall of Year 2 - Thesis Proposal: Complete and submit Thesis Proposal Form</i></p> <p>NOTE: Elective courses chosen in consultation with your advisor.</p>								
Fall	EH 300	Independent Study	2.5					Students may choose to register for 2.5 credits of EH 300 Independent Study with their thesis advisor to focus on their thesis research

Year 2 Spring - Environmental Health Occupational Health								
Semester	Course Code	Course Title	HSPH Credits	Day	Time	Completed/ Waived	Grade	Notes
<i>Required Courses</i>								
Spring	EH 257 <i>or</i> EH 297	Water Pollution <i>or</i> Atmospheric Environment	5 5	Tu/Th <i>or</i> W/F	9:45-11:15 11:30-1:00			
Spring	EH 508	Master's Thesis and Collaborative Research in Environmental Health	5	W	3:45-7:00			
<p><i>An additional approved 5.0 credits of intermediate biostatistics course(s).</i></p> <p><i>Recommended: BST 210 Applied Regression Analysis or BST 213 Applied Regression for Clinical Research. Consult with your advisor.</i></p> <p>NOTE: <i>Elective courses chosen in consultation with your advisor.</i></p>

Graduation and Offboarding

Account/Service	Expiration
HarvardKey	<p>HarvardKey credentials including 2-step authorization continue to work indefinitely after graduation.</p> <p>Harvard University’s central alumni resources at http://www.alumni.harvard.edu utilize the HarvardKey for authentication.</p> <p>Most other SPH and University systems are restricted to active students. More information on specific systems may be found below.</p>
Harvard University Identification Cards	Harvard Identification cards are deactivated immediately following commencement .
Student printing	Student printing access is tied to your Harvard University Identification card; therefore, printing access ends immediately following commencement .
O365 email/calendaring including OneDrive, Sharepoint (@hsph.harvard.edu accounts)	<p>The Harvard University policy for Microsoft Office 365 accounts (designated by student@hsph.harvard.edu) states that accounts expire 230 days after a student’s graduation*. This grace period gives students time to continue to use their email address after graduation for job searches and other communications. The Department of Information Technology can provide guidance on how to create a personal archive of your mail as well as copy other O365 files to local drives ahead of the end of the grace period.</p> <p>Alumni are notified at 10 days prior to account expiration and at 5 days prior to account expiration.</p>

Account/Service	Expiration
Alumni email forwarding (@alumni.harvard.edu)	The Harvard Alumni Association has retired this service. It is no longer available to graduating students. Further information on policies and how to establish your forwarding may be found at: https://alumni.harvard.edu/help/email-forwarding .
SPH Network and Personal Drives (P:/, S:/, G:/)	Access to services ends on June 30th for all graduates including March, May and November graduation dates. The HSPH Helpdesk can provide guidance to assist you in moving any personal files to personal computers or other devices.
My.Harvard portal	Access to My.Harvard continues after graduation with information tailored toward alumni. This tab allows students to do items like review course history/grades and print an unofficial transcript.
SPH Virtual Computer Laboratories (VDI)	Access to services end on June 30th for all graduates including March, May and November graduation dates.
Zoom video conferencing	Access ends immediately following commencement for all graduates including March, May and November graduation dates.
Qualtrics	Access ends immediately following commencement. This includes access to any surveys created and survey data. Please see Qualtrics FAQ for off-boarding information.
Canvas courses	Access to courses on Canvas is available for up to two years after graduation . Some collaborative features of courses will be in a “read only” state after the course has concluded (e.g., discussion boards, assignment submissions). Features that rely on student library access privileges will not be available. Please also note that

Account/Service	Expiration
	<p>faculty may opt to remove their courses and/or select content ahead of the two-year time period. We recommend copying materials locally to your computer to ensure continued access to content of interest from your courses.</p> <p>If a course was recorded, videos will be available for up to two years after the course was offered. Faculty may opt to remove course videos ahead of the two-year time period. Videos are not available for download.</p> <p>If you have questions or problems accessing materials, please contact the Harvard Chan IT Helpdesk at helpdesk@hsph.harvard.edu.</p>
Harvard Library Access	<p>Student access to Harvard libraries is removed immediately after graduation (March, May or November dates).</p> <p>However, all Harvard alumni now have access to a wide variety of electronic resources from the Harvard Libraries. While this catalog is not comprehensive it does provide access to many of the most popular journals and other resources through the Harvard Libraries.</p> <p>Additionally, alumni can apply for borrowing privileges at Countway and Widener Libraries for a fee, and SPH Office of Alumni Affairs recently launched alumni access to one of the largest publishers of online journals.</p> <p>Your alumni representatives serving on the Harvard Chan School Alumni Council are continuing to seek new ways for Harvard Chan School alumni to access Harvard’s vast scholarly resources.</p> <p>Visit the SPH Office of Alumni Affairs benefits page to see what scholarly resources are currently available to our alumni and how to access them.</p>

Account/Service	Expiration
FAS Odyssey High Performance Research Computing	If you have access to Odyssey for research in collaboration with a faculty sponsor, continued access/decommissioning of your account beyond graduation is determined by your faculty sponsor. Please contact your faculty sponsor for additional information.
SPH WordPress Accounts	Access to any SPH websites that are restricted to an active SPH group (e.g., active SPH students, active SPH community) will expire immediately upon graduation. If you have editing privileges for a particular SPH site, access persist until/if the SPH website owner removes your access.
Harvard Wiki http://wiki.harvard.edu	Access persists to Harvard wikis after graduation utilizing your HarvardKey. Access to particular a wiki is dependent upon the permissions of the wiki. For example, if a wiki is open to “all SPH students,” upon graduation, your access to that particular wiki would expire immediately upon graduation. Alternatively, if a wiki was open to you as an individual, your access persists indefinitely until/if the wiki owner removes your access.
Harvard MessageMe	Access ends immediately following commencement.

Frequently Asked Questions

I still have some work to do and need access to Harvard Chan school buildings. What should I do?

Alumni are always welcome to visit the Harvard Chan School campus buildings. Future access to the campus will require either a visitor pass or application for a non-student HUID to be approved by the appropriate department. If you only need access for the day, please identify yourself to the Kresge entrance security guard as a graduate of the Harvard Chan School and the security guard will direct you to the ID office. The ID office will ask for

a photo ID and will issue you an alumni visitor pass for the day. Alumni may only receive a single-day pass without making prior arrangements with a department or program administrator, and no more than two-day passes will be issued in any given three-month period. If you require sustained access to the Harvard Chan School buildings after graduation to complete work or for other legitimate business or academic reasons, please see your department or program administrator, who can sponsor you for a temporary ID—for one week or 30, 60, or 90 days—that will allow you access to the portions of the campus that are necessary for completing your work. The decision to sponsor a temporary ID is at the sole discretion of the department or program and may be rescinded at any time (revised July 10, 2013).

Why is my HUID disabled so soon after graduation?

Harvard University policy mandates that all HUIDs be deactivated the day a student graduates, whether November, March or May. Deactivated HUIDs should be turned in at the ID Office.

I'm still doing some research. Can I use the Countway Library or other Harvard libraries after graduation?

Student access to Harvard libraries is removed immediately after graduation. However, all Harvard alumni now have access to a wide variety of electronic resources. While this catalog is not comprehensive, it does provide access to many of the most popular journals and other resources through the Harvard libraries. Additionally, alumni can apply for borrowing privileges at Countway and Widener Libraries for a fee, and we recently began providing alumni access to one of the largest publishers of online journals. Your alumni representatives serving on the Harvard Chan School Alumni Council are continuing to seek new ways for Harvard Chan School alumni to access Harvard's vast scholarly resources. Visit our Career Tools page to see the scholarly resources that are currently available to our alumni and how to access them.

What about Canvas? Can I still access my course materials after graduation?

Access to courses on Canvas is available for up to two years after graduation. Some collaborative features of courses will be in a "read only" state after the course has concluded (e.g., discussion boards, assignment submissions). Features that rely on student library access privileges will not be available. Please also note that faculty may opt to remove their courses and/or select content ahead of the two-year time period. We recommend copying materials locally to your computer to ensure continued access to content of interest from your courses.

If a course was recorded, videos will be available for up to two years after the course was offered. Faculty may opt to remove course videos ahead of the two-year time period. Videos are not available for download.

If you have questions or problems accessing materials, please contact the Harvard Chan IT Helpdesk at helpdesk@hsph.harvard.edu.

I'm still looking for a job. Can I use the Office of Career and Professional Development after graduation?

Yes. A variety of services are available throughout your career, and you are always welcome to contact us for assistance. As alumni, you will also have lifelong access to the CareerConnect job listings, and we are increasingly posting mid- to senior-level positions to help you as you progress through your career. Please visit the Career Advancement website for more details.

Does my Harvard email expire?

Student email accounts expire 365 days after a student's graduation.

Does my access to other Harvard Chan and Harvard systems expire?

Access to most systems ends upon graduation or shortly thereafter. Policies are determined by the technology unit that manages each service on a service-by-service basis.

Most notably, access to your Harvard Chan network drives (P:/, S:/, G:/ drives), as well as virtual student computing (VDI), expires on June 30 for all graduation dates (November, March, and May). The Department of Information Technology can provide guidance on copying personal files to your local computer or other devices.

The Department of Information Technology also maintains a detailed list at <https://hsph.me/student-offboarding> with additional information for recent graduates.

Does my HarvardKey credential expire?

Current Harvard University policy states that your HarvardKey credential does not expire. The HarvardKey is used for some alumni activities, including accessing the University's alumni website (alumni.harvard.edu)

How can I connect with other Harvard Chan School alumni specifically?

A unique benefit of attending the Harvard T.H. Chan School of Public Health is that you are part of a great School within a great University! Our alumni are members of both the Harvard Chan School Alumni Association and the University-wide Harvard Alumni Association (HAA) described below. Please note that joining the Harvard Chan School Alumni Online Community requires a separate registration process from that for the HAA registration. The Harvard Chan School Alumni Online Community features a secure, password-protected, Harvard Chan School-specific alumni directory, an alumni mentoring network, information on how to submit class notes, listings of regional groups, current news about Harvard Chan School faculty and alumni, and career and volunteer opportunities around the globe. Whenever your home or business information changes, be sure to update your online community profile. You can also request to join the Harvard Chan Alumni LinkedIn Network and Facebook groups.

I heard I can join the Harvard Alumni Association (HAA). What's that about?

As an additional resource, all Harvard alumni are eligible to register with the Harvard Alumni Association at a password-protected site (alumni.harvard.edu) offering a variety of services, including a University-wide alumni directory, distance-learning programs, and career/networking opportunities.

To register:

1. Go to the HAA website.
2. Click the Community Login or Register button on the top right-hand side of the page and Follow the information requests.
3. Use your existing Harvard Key to log in.
4. If you have any problems registering, please email the HAA help desk or call 800-823-2478 or 617-496-0559 (M-F, 9 am – 5 pm ET) or visit the HAA help page for more options.

What happens to insurance when you graduate?

November Degree

November degree candidates who complete their degree requirements on or before September 8 will have HUSHP coverage retroactively cancelled back to the last day of the prior term of coverage (July 31) and students will be charged for any services incurred through the health program during this period.

► Students who register for the fall term and complete their degree requirements between September 9 and October 9 will be charged for HUSHP for the fall term and will have coverage from August 1-January 31.

► Students who register for the fall term and complete their degree requirements on or after October 10 will not be considered November degree candidates. HUSHP charges will remain on the student account for fall term and the student will have coverage from August 1-January 31.

Sample scenario one

5/30 Student misses May degree deadline and is presumed to be a November degree candidate 7/01 Student is billed for HUSHP

8/25 Student registers for fall

9/08 Student completes degree requirements
9/13 HUSHP is cancelled retroactively back to July 31

Sample scenario two

5/30 Student misses May degree deadline and is presumed to be a November degree candidate
7/01 Student is billed for HUSHP
8/25 Student registers for fall
9/09 Student completes degree requirements
9/13 HUSHP remains on student's bill and the student is covered from August 1 through January 31

March Degree

- HUSHP coverage will terminate on January 31 for all March degree candidates.

May Degree

- HUSHP coverage will terminate on July 31 for all May degree candidates.

Electives

	<i>Potential Electives: This is not a comprehensive list. Consult with your Advisor when choosing your electives.</i>				
Course Code	Course	Credits	Semester	Day	Time
API 135	Economics of Climate Change and Environmental Policy	4	Spring	M/W	1:30-2:45
