HARVARD SCHOOL OF PUBLIC HEALTH
François-Xavier Bagnoud Center for
Health and Human Rights

Founded through support of the Association François-Xavier Bagnoud

François-Xavier Bagnoud Center for Health and Human Rights

The François-Xavier Bagnoud Center for Health and Human Rights was founded at the Harvard School of Public Health in January 1993. The Center considers that the promotion and protection of health and the promotion and protection of human rights are inextricably linked. The Center is dedicated to exploring the conceptual dimensions and practical applications of this critical relationship. Through its concentrated focus on the intersection of health and human rights, the Center also seeks to help revitalize the field of public health and broaden human rights thinking and practice.

Harvard School of Public Health

The Harvard School of Public Health includes more than 200 faculty members working in various disciplines of public health. The overriding mission of the School—to advance the public's health through learning and discovery—comprises four objectives: to educate scientists, professionals, and leaders of public health; to foster new discoveries and develop better technologies for improved health of individuals and populations; to inform and influence debate on key public health issues; and to strengthen capacities and services that meet health needs in the community.

Association François-Xavier Bagnoud

The Association François-Xavier Bagnoud currently supports worldwide programs in humanitarian assistance, aerospace research for the benefit of people, and community life in the Swiss canton of Valais. Humanitarian assistance focuses on children's rights—especially the right to health care—of children who are orphaned, abandoned or sick, many of whom have AIDS or are HIV-infected. Projects are located in Thailand, India, Switzerland, Kenya, Uganda, Uruguay, Columbia, and the United States. The Association François-Xavier Bagnoud bears the name of a young Swiss helicopter rescue pilot who died in a helicopter accident while flying over the desert in Mali in 1986.

Health and Human Rights (ISSN 1079-0969) is published quarterly by the François-Xavier Bagnoud Center for Health and Human Rights at the Harvard School of Public Health. Third-class postage paid at Boston, Massachusetts and additional mailing offices.

PUBLICATION POLICY

Health and Human Rights is an international quarterly journal dedicated to studying the relationships between human rights and health. The journal examines the effects of human rights violations on health; the impacts of health policies on human rights; and the inextricable nature of the relationship between the promotion and protection of health and the promotion and protection of human rights. Issues of international impact and significance for health and human rights are of particular interest.

Health and Human Rights welcomes unsolicited manuscripts. Authors interested in being published should send their manuscripts to the Editorial Office at the address above. Manuscripts should be typed, double-spaced, submitted in triplicate, and accompanied by a computer diskette, preferably in Microsoft Word 5.1 or Word Perfect 5.1. Detailed guidelines for contributors may be obtained by writing to the address above.

Views expressed in the journal are those of the authors and do not necessarily reflect the views of *Health and Human Rights'* officers, editors, or other members.

SUBSCRIPTIONS

	1 YEAR	2 YEAR	3 YEAR
Students	\$24	\$42	\$64
