INFECTIOUS DISEASES**

Is Increasing Because of Climate Change

WOMEN, GENDER & HEALTH
INTERDISCIPLINARY CONCENTRATION

HARVARD T.H. CHAN
SCHOOL OF PUBLIC HEALTH

Women, Gender & Health presents:

CLIMATE, MIGRATION, GENDER & HEALTH

Wed, Apr 27, 1-1:50 pm ET

Zoom & In Person (Kresge 205)

Join us as we welcome **Caleb Dresser** (C-CHANGE Climate & Human Health Fellow) and **Natalia Linos** (FXB Executive Director) to discuss the linkages between climate change and migration and how gender is a cross-cutting lens through which communities experience these challenges to health. These conversation partners will explore how the dynamics of climate change are unfolding, and paths forward in research and policy within the climate-gender-migration nexus.
