

Degree and Field of Study (2019):
MPH Epidemiology

Project Title
Coronary artery bypass grafting surgery versus percutaneous coronary intervention for multi-vessel coronary artery disease: A preliminary meta-analysis of randomized control trials
Regional and national real-world healthcare resource utilization, clinical and cost outcomes of Type 2 diabetes patients treated with SGLT2i
Longitudinal Association Between Chronic Periodontitis and the Risk of Hypertension
The Impact of Breakfast Skipping on Body Composition and Cardiometabolic Risk Factors: A Systematic Review and Meta-Analysis
Egg Consumption and Risk of Stunting Among 6-24 Month Old Children in Nepal
Utility of mGAP score in predicting survival in lung transplant candidates with IPF
The Epidemiology of Lassa Fever: Initial Analysis Using Nontraditional Data Sources
Association between vitamin D supplementation and cardiovascular risk factors, NHANES 2007-2014
Housing Instability, Smoking, and Intention to Quit in Health Center Patients
Validation of a Tool to Predict Violence and Aggression by Behavioral Health Patients for Use in the Emergency Department
Is there an association between left ventricular outflow tract obstruction and myocardial fibrosis in hypertrophic cardiomyopathy
The Association Between Hospital Quality and Costs of Inpatient Colorectal Cancer Surgery in a Universal Healthcare System
Racial differences in admission rates for substance use disorders in a Wisconsin community hospital
Vitamin D, smoking, long-term disability and CNS integrity among clinically isolated syndrome patients: 11-year follow-up of BENEFIT
County-Level Characteristics from the American Community Survey in relation to County-Case Rates of Hepatitis A in Kentucky: An Ecologic Study
Randomized controlled trial analyzed as a case-control study: an application to the Women's Health Initiative study
HIV risk behavior, risk perception, and risk reduction among people who inject drugs in 20 states, United States
The relationship between online health information seeking behavior and use of health care services
Factors Associated with the Unmet Dental Care Needs of the USA Elderly Population
Study of Oral Health Services Delivered by Medical Providers
Low sodium Intake and Cardiovascular Disease Mortality Among Adults with Hypertension

Degree and Field of Study (2019):
MPH Epidemiology

Long-term risk of colorectal cancer and related deaths after adenoma removal in a large, community-based population
Educational Disparities in Influenza Immunization in the United States
Adjuvant Steroid Therapy and Length of Hospital Stay in Pneumonia Patients
How the High Acuity Unit Changes Mortality in the Intensive Care Unit
Quality of life impairment of patients with vestibular stroke, acute peripheral vestibulopathy and recurrent vestibular disorders presenting in the emergency room
Title: Impact of provider treatment delay in early stage breast cancer on outcomes across public health services in South Brazil and Harris Health Texas
Comparing the effectiveness of reduced dose NOACs for stroke prevention in atrial fibrillation
The effect of radiotherapy on cause specific survival in locally advanced rectal cancer through eras of changing surgical approach
Operative case volumes in sub-Saharan Africa: survey and operative case log review to define the optimal minimum for training
Does a Black Child in Pain Receive Less Pain Medication than a White Child? : Analysis of U.S. Emergency Room Data from the National Hospital Ambulatory Medical Care Survey (NHAMCS) - 2010 through 2015
Assessing the Effects of Facebook Fake News on the People's Perception of E-cigarette
A comprehensive analysis of the direct and indirect costs of multiple sclerosis
Risk factors for Mycobacterium ulcerans infection in sub-Saharan Africa: A Systematic Review and Meta-Analysis
Social disparities in liver transplantation in the United States
Travel Distance and Hospital Volume: Effects on Treatment Outcomes for Extremity Soft Tissue Sarcoma
Cost Disparities with Age in the Treatment of Advanced Non-Small Cell Lung Cancer (NSCLC) in Ontario, Canada
Investigating an association between socioeconomic status and BRAF mutational status in patients with melanoma living in Victoria, Australia.
Associations between lifestyle habits and health-related quality of life: Findings from the Behavioral Risk Factor Surveillance System, 2017
