A variety of funding opportunities and announcements is below for the period 2/3/24-2/14/24. While we attempt to capture a broad cross-section of funding opportunities related to public health, the Harvard T.H. Chan School of Public Health community can also access several proprietary funding opportunity search engines that help develop and automate customized funding opportunity searches.

**Featured News and Announcements**

**Upcoming ORSD Open Office Hours**
ORSD team members will be within departments and available to answer faculty questions and discuss relevant issues!

You do not need to be from SBS to drop in, but to ensure availability, please email esylvester@hsph.harvard.edu.
March 29, SBS, Kresge 606

To ensure Harvard is providing appropriate and adequate support, we seek your feedback. Please submit your survey by the end of day March 18, 2024.

**Funding Opportunities**

*NOTE: When applying for external awards, PIs and grant managers should closely review the terms and conditions for potential conflicts. Any questions should be referred to Harvard Chan School SPA. In addition, ALL sponsored proposals must be reviewed by SPA 7 days before the sponsor due date, so please allow appropriate lead time to work with your grant manager prior to the SPA deadline.*

**NEW: Limited Submission - Pediatric Cancer Research Foundation (PCRF): Grants**
Deadline: February 16, 2024
The Pediatric Cancer Research Foundation offers grants in order to identify and fund the most promising next-generation treatments for childhood and teen cancer. Harvard University, as one institution, can nominate three applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

**NEW: Limited Submission - Pew Biomedical Scholars Program**
Deadline: March 10, 2024
This Program provides funding to young investigators of outstanding promise in science relevant to the advancement of human health. Awards are granted in the broad field of biomedical research, including areas such as bioengineering, biophysics, and chemistry. The program supports the independent
research of outstanding individuals who are in their first three years of their appointment at the assistant professor level. The application process for the Harvard Chan School and the Harvard Medical School is managed by the HMS Foundation Funds. Chan School applicants should apply through the Harvard University Funding Portal (HUFP) using the link above. There you will also find more information on award eligibility and internal submission requirements.

*NEW: Limited Submission – DOE: Advancements in Artificial Intelligence for Science
Deadline: February 18, 2024
Applications are being accepted in basic computer science and applied mathematics research in the fundamentals of Artificial Intelligence (AI) for science. Specifically, advancements in this area are sought that can enable the development of: Foundation models for computational science; Automated scientific workflows and laboratories; Scientific programming and scientific-knowledge-management systems; Federated and privacy-preserving training for foundation and other AI models for science; Energy-efficient AI algorithms and hardware for science. Harvard University, as one institution, can nominate three applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

**NEW: Limited Submission - Robert J. Kleberg, Jr. and Helen C. Kleberg Foundation
Internal deadline: February 26, 2024
Sponsor deadline: March 31, 2024
The Foundation is seeking highly innovative and groundbreaking medical research proposals from top tier institutions in both basic biological and applied research that will have the greatest impact on scientific knowledge and human health. Proposals should be distinctive and novel in their approaches, question the prevailing paradigm, and lead to advancement of knowledge in the field. The Harvard Chan School can nominate one applicant(s) for this award. If you are interested in applying, you must submit a brief Notice of Intent including PI name, department, and a brief (1-2 sentence) description of the proposed project to the Office of Research Strategy and Development (alever@hsph.harvard.edu) no later than February 26, 2024. Based on the number of notices received, we will determine whether an internal competition is needed.

*NEW: American Cancer Society (ACS): AHEAD (Advancing Health Equity and Addressing Cancer Disparities) Awards
Deadline: April 1, 2024
The American Cancer Society (ACS) is committed to improving the lives of cancer patients and their families by enhancing access to quality cancer care and ensuring that all people have an equal chance to prevent, detect, treat, and survive cancer. Toward this goal, ACS is announcing AHEAD (Advancing Health Equity and Addressing Cancer Disparities) Awards intended to fund pilot, first-in-field, innovative strategies that increase quality cancer screening, clinical trials—and cancer care closer to home.

*NEW: American Heart Association/Robert Wood Johnson Foundation: Health Equity Research Network (HERN) on Community-Driven Research Approaches,
This unique funding opportunity is designed to strengthen infrastructure to support community-driven health organizations, leading to improvements in upstream health disparities to ultimately help people live longer, healthier lives. The establishment of this HERN can help facilitate the needed shift in how community-driven research is currently conducted. There are two funding opportunities through this unique award mechanism; an individual may apply for only one of these opportunities:
Health Equity Research Network (HERN) on Community-Driven Research Approaches – Partner Hub
Deadline: March 26, 2024 (pre-proposal)
The key outcome of this HERN is the establishment of new models for community-driven research that can be scaled and used as a foundation for shifting norms, paradigms and practices within all domains of health research. Each Partner Hub must have two research projects and be represented by a community-based organization and an academic institution. The collaborations between and among the Partner Hubs build momentum around both systems change and knowledge of a particular issue, making it an ideal mechanism to meet the interrelated objectives.

Health Equity Research Network on Community-Driven Research Approaches – Community Engagement Resource Center
Deadline: March 28, 2024 (pre-proposal)
The Community Engagement Resource Center (CERC) will, under leadership of the Director, incorporate a multidisciplinary approach to provide capacity building, training, evaluation, and the management of a Community of Practice for the full Network. The CERC will facilitate engagement across the Partner Hubs and service as a coordinating center, facilitating capacity building, study optimization, communication, evaluation, and a Community of Practice.

*NEW: American Academy of Neurology and American Heart Association: The Ralph L. Sacco Scholars Program in Brain Health
Deadline: April 9, 2024
Two-year postdoctoral fellowship support for work focused on how to maintain a healthy brain over a person's lifetime. Candidates should be engaged in research focused on prevention of brain disease.

*NEW: Robert A. Winn Diversity in Clinical Trials: Career Development Award
Deadline: May 13, 2024
The Winn CDA is a two-year program is designed to support the career development of early-stage investigator physicians from diverse backgrounds, and physicians who have a demonstrated commitment to increasing diversity in clinical research, to become independent clinical trial investigators who are engaged in advancing health equity through their research.

*NEW: Robert Wood Johnson Foundation: Healthy Eating Research
Deadline: April 3, 2024 (concept note)
This call generates evidence on supportive family policies and programs that have strong potential to impact equitable access to nutritious food in communities, nutrition security, diet quality, and improved nutrition and health outcomes. We are especially interested in strategies to improve health outcomes for families with lower incomes and/or racially and ethnically diverse populations experiencing higher rates of diet-related chronic disease and/or health disparities. Findings will be used to guide and inform decision making about policy and system changes that can advance nutrition equity and improve health.

*NEW: A Breath of Hope Lung Foundation: Julie Swedberg YOLO Award
Deadline: March 1, 2024
These early-career investigator awards ensure that excellent research receives funding and the chosen research institutions have the resources needed to retain promising scientists committed to reducing
lung cancer mortality. Preferred topics: Specifically, proposals that address non-small cell lung cancer or small-cell lung cancer are required.

*NEW: The SWOG/Hope Foundation Impact Award
Deadline: July 01, 2024 (LOI); September 01, 2024 (proposal)
This program encourages novel and innovative SWOG research by supporting early and conceptual stages of these projects. The work proposed should use resources from completed SWOG trials or be directly translatable to clinical trials in SWOG and the NCTN in the foreseeable future.

*NEW: Massachusetts Foundation for the Humanities
Deadline: April 5, 2024 (LOI); Advancing Equity Track: May 31, 2024 (proposal); Open Track and Climate Change Track: August 02 2024 (proposal)
Massachusetts needs new voices and fresh narratives to meet our challenges. We support organizations that embrace this historical moment as an opportunity to bring communities together to reimagine stories, revitalize traditions, and ignite new ideas for the future. Expand Massachusetts Stories grants support projects that collect, interpret and share narratives about the commonwealth, emphasizing the voices and experiences that have gone unrecognized or have been excluded from public conversation. Advancing Equity Track will award grants to applicants whose projects are led by people from historically excluded communities, and whose organizations meet additional criteria; Open Track grants projects that collect, interpret and/or share narratives about the Commonwealth, with an emphasis on the voices and experiences that have gone unrecognized, or have been excluded from public conversation; Climate Change Track offers grants for projects that illuminate community knowledge, experiences, and values, in response to the climate crisis.

*NEW: Melanoma Research Alliance (MRA): Next Steps Program: Advancing Drug Discovery to Identify New Therapies
Deadline: March 28, 2024
The intent of this funding strategy is to help advance translation of discoveries into the clinic by supporting: 1) needed preclinical resources and tools for the research community to identify and begin to develop new therapies; and 2) infrastructure to analyze and build large datasets to identify better diagnostic and prognostic biomarkers leading to hypothesis-driven research proposals for submission to MRA and other funding agencies.

*NEW: Dresner Foundation: MDS Research Fund (MDSRF)
Deadline: March 15, 2024 (LOI); July 08, 2024
To advance the understanding and treatment of Myelodysplastic Syndromes (MDS) and related blood disorders (such as MDS/myeloproliferative neoplasms (MPN) overlap syndromes, secondary acute myeloid leukemia following MDS, idiopathic cytopenia of undetermined significance (ICUS), or clonal hematopoiesis of indeterminate potential (CHIP)), the foundation established the MDS Research Fund (MDSRF).

*NEW: Lupus Research Alliance: Lupus innovation award
Deadline: March 4, 2024
The LIA supports pioneering, high-risk, high-reward approaches to major challenges in lupus research. The overarching goals of the LIA are to: (1) promote investigation of underexplored pathways and fundamental mechanisms of lupus and its complications; and (2) initiate transformative discoveries in lupus that can drive the development of safer and more effective treatments or novel biomarkers. All
studies should have a clear and direct relevance to people with lupus and should offer the potential to improve the standard of care for the disease or usher in a cure.

*NEW*: Crohn’s and Colitis Foundation: Research Fellowship Awards
Deadline: May 6, 2024 (LOI)
Supports post-doctoral individuals in developing skills related to basic and/or clinical investigation into IBD.

*NEW*: Crohn’s and Colitis Foundation: Career Development Awards
Deadline: May 6, 2024 (LOI)
 Prepares potential basic/translational researchers to transition to a career of independent investigation and research.

*NEW*: Crohn’s and Colitis Foundation: Clinical Research Investigator-Initiated Awards
Deadline: May 6, 2024 (LOI)
Provides funding to junior and established clinical researchers to directly impact patient care by addressing important clinical questions. The expectation is that the research findings from funded CRIAs will result in highly-cited publications, citations in clinical guidelines, and/or follow-on funding to advance the research further.

*NEW*: Crohn's and Colitis Foundation of America, Inc.: Litwin IBD Pioneers Initiative
Deadline: May 6, 2024
This program supports innovative clinical and translational research projects with the potential to impact the treatment of IBD patients in the near future. The program encourages novel research into the diagnosis, identification of clinically relevant subsets, treatments, and cures for inflammatory bowel diseases (IBD) and funds innovative pilot research so that scientists can test their initial ideas and generate preliminary data.

*NEW*: Crohn's and Colitis Foundation: Senior Research Awards
Deadline: May 6, 2024 (LOI)
Provides funding for established basic/translational researchers so they are able to generate enough preliminary data to be competitive for additional funding.

*NEW*: Crohn’s and Colitis Foundation: CIBD Ventures
Deadline: LOIs can be submitted anytime
Program to accelerate product development aimed at improving quality of life for IBD patients. Funding is open to companies and academic investigators.

*NEW: CurePSP - Foundation for PSP/CBD and Related Brain Diseases: Research Grants
Deadline: March 28, 2024
CurePSP will fund studies on PSP and CBD with a particular interest in (i) fundamental neurobiology and mechanisms of PSP and CBD and (ii) translational projects focusing on new therapeutics and biomarkers for PSP and CBD.

*NEW: Human Frontier Science Program Organization: Research Grants
Deadline: March 19, 2024
Research grants are provided for teams of scientists from different countries who wish to combine their expertise in innovative approaches to questions that could not be answered by individual laboratories.
Preliminary results are not required and applicants are expected to develop new lines of research through the research collaboration. Two types of Grant are available: Research Grants – Program (RG-Program): to allow teams of independent researchers to develop new lines of research through a new collaboration, with applications including independent investigators early in their careers being particularly encouraged; Research Grants – Early Career: to enable teams of young investigators who are directing a research group to initiate and direct their own independent lines of research.

*NEW: Critical Path Institute: Translational Therapeutics Accelerator: Breakthrough Research and Innovation in Drug Development Grants
Deadline: March 31, 2024
These awards are designed to support academic researchers in traversing the drug development valley by funding and defining optimal strategies for advancing new, cutting-edge therapeutics from the lab to patients.

*NEW: Union for International Cancer Control: Implementation research for cancer prevention in Europe
Deadline: March 15, 2024
This call supports implementation research projects for cancer prevention in Europe. The aim is to support the scale-up of existing evidence-based interventions for cancer prevention into health system policies and practices in Europe, to reduce the burden of cancer.

*NEW: European Association for Cancer Research: EACR/Standard BioTools Spatial Biology Grant Award
Deadline: March 22, 2024
This grant awards the two most impactful proposals in cancer research that use Imaging Mass Cytometry™ (IMC™), the chance to deeply profile the tumor microenvironment by performing spatially resolved, highly multiplexed whole slide biomarker analysis.

*NEW: Fontagro: Annual grants
Deadline: April 3, 2024
The objective of the call is to identify those regional project proposals that demonstrate concrete evidence of how to promote networked, efficient, sustainable, and resilient productive systems through knowledge, science, technology, and innovation that result in reduced GHG emissions. This call is aligned with strategy I of the MTP 2020-2025, which aims to increase the number of technologies and innovations with high potential for adoption and impact on the resilience and sustainability of agricultural systems and agroecosystems. The initiatives must be based on prior scientific knowledge and must promote innovations or validate existing, promising, or successful ones, to fulfill the objective of the call.

*NEW: USAID: Enabling Environment for Climate Resilience Activity
Deadline: March 21, 2024
The Government of Bangladesh (GoB) has recognized the imperative to strengthen its resilience to climate change in response to the growing climate crisis and the urgent need for transformative change. Bangladesh’s vulnerability stems from its geographical attributes, high population density, and susceptibility to various climatic and geophysical hazards, which have already resulted in significant economic losses. Recent assessments, including the Intergovernmental Panel on Climate Change (IPCC)’s Synthesis Report, emphasize the pressing nature of addressing climate change. Against this backdrop, the United States Agency for International Development (USAID) introduced its Climate Strategy in 2022. This strategy outlines two primary objectives: targeted direct action and transformational systems change. The latter objective, crucial for long-term impact, necessitates comprehensive policy shifts, economic transformations, and enhanced governance. USAID’s vision aligns with the GoB’s priorities outlined in the
National Adaptation Plan (NAP), Nationally Determined Contributions (NDC), and the Mujib Climate Prosperity Plan (MCPP). The proposed activity aims to catalyze systemic shifts by fostering an enabling policy environment, facilitating technology transfer, promoting climate research, and scaling climate actions. Ultimately, this initiative seeks to empower Bangladesh to transition towards net-zero emissions and climate-resilient development pathways.

*NEW: Alzheimer’s Drug Discovery Foundation: Prevention Pipeline  
Deadline: May 13, 2024 (LOI); September 30, 2024 (LOI)  
The ADDF seeks to support studies of cognitive symptoms due to health conditions, comparative effectiveness research, and epidemiological studies that probe whether the use or choice of drugs alters the risk for dementia or cognitive decline.

*NEW: Alzheimer’s Drug Discovery Foundation: Diagnostics Accelerator Programs  
Deadline: Rolling  
These awards focus on true collaboration among renown clinicians, who are directly involved with patients and understand the disease, scientists who are developing the tests, and diagnostics companies that understand the regulatory pathways – driving research and product development. The Diagnostics Accelerator challenges the research community to develop cutting-edge biomarkers and explore novel diagnostic technologies that will aid in Alzheimer’s diagnosis and clinical trial design. Research funded to date focuses on various methods and targets including blood tests in various stages of development, as well as eye scans and digital tools. These awards focus on true collaboration among renown clinicians, who are directly involved with patients and understand the disease, scientists who are developing the tests, and diagnostics companies that understand the regulatory pathways – driving research and product development. There are two programs: Peripheral Biomarkers RFP; Digital Biomarkers RFP.

*NEW: American Cancer Society: The Clinician Scientist Development Grant (CSDG)  
Deadline: April 1, 2024; October 15, 2024  
This grant supports full-time faculty members in becoming independent investigators as clinician scientists. This grant is designed for people trained primarily as clinicians who want to maintain clinical practice and conduct cancer research.

*NEW: American Cancer Society: Research Scholar Grants  
Deadline: April 1, 2024; October 15, 2024  
Research Scholar Grants (RSG) provide support for independent, self-directed researchers. Grant proposals are investigator-initiated and may pursue questions across the cancer research continuum, as long as they fit within an American Cancer Society (ACS) priority research area. These grants typically contribute to the cost of salaries, consumable supplies, and other miscellaneous items required in the research.

*NEW: American Cancer Society: HEALED Gold Medal RFA to Support Mind-Body-Spirit Wellness in Cancer Survivors  
Deadline: April 1, 2024  
Successful applications will propose studies with direct application to improving the lives of cancer survivors (defined as anyone diagnosed with cancer from the date of diagnosis through the end of life) and will include patient reported outcomes, as well as objective measures (e.g., VO₂ max, grip strength, skeletal muscle index, cortisol, insulin). While novel descriptive studies are accepted, priority will be given to studies focused on translation and implementation in diverse/understudied populations.
*NEW: American Association for Cancer Research: Gertrude B. Elion Cancer Research Award  
**Deadline:** March 4, 2024 (LOI); June 3, 2024 (proposal)  
With generous support from GlaxoSmithKline, the AACR Gertrude B. Elion Cancer Research Award represents a joint effort to encourage and support tenure-eligible junior faculty. The research proposed for funding must focus on cancer etiology, diagnosis, treatment, or prevention and may be basic, translational, or clinical in nature.

*NEW: American Association for Cancer Research: Ocular Melanoma Foundation Joanne Barlia Research Fellowship  
**Deadline:** March 21, 2024  
This Fellowship represents a joint effort to encourage and support a postdoctoral or clinical research fellow to conduct ocular/uveal melanoma research and to establish a successful career path in ophthalmology, ocular oncology, uveal melanoma biology, or a similar field. The research proposed for funding must be translational or clinical in nature and must have direct, primary applicability and relevance to ocular/uveal melanoma.

*NEW: American Association for Cancer Research: Exelixis Renal Cell Carcinoma Research Fellowship  
**Deadline:** April 11, 2024  
The AACR-Exelixis Renal Cell Carcinoma Research Fellowship represents a joint effort to encourage and support a postdoctoral or clinical research fellow to conduct renal cell carcinoma research and to establish a successful career path in this field. The research proposed for funding may be in basic, translational, clinical, or population sciences research and must have direct applicability and relevance to renal cell carcinoma.

*NEW: AACR-KidneyCAN Kidney Cancer Innovation and Discovery Grants  
**Deadline:** April 11, 2024  
The inaugural AACR-KidneyCAN Kidney Cancer Innovation and Discovery Grants is a new grant mechanism that seeks to stimulate creative approaches to translate basic research into new treatment options for kidney cancer.

*NEW: TED: The Audacious Project  
**Deadline:** March 15, 2024  
This project is a collaborative funding initiative catalyzing social impact on a grand scale. Every year we select and nurture a group of big, bold solutions to the world’s most urgent challenges, and with the support of an inspiring group of donors and supporters, come together to get them launched. Housed at TED, the nonprofit with a long track record of surfacing ideas worth spreading, and with support from leading social impact advisor The Bridgespan Group, the funding collective is comprised of several respected organizations and individuals in philanthropy.

The Elsa U. Pardee Foundation: Cancer Research Grants  
**Deadline:** April 30, 2024; August 31, 2024; December 15, 2024  
This award funds research to investigators in United States non-profit institutions proposing research directed toward identifying new treatments or cures for cancer. The Foundation funds projects for a one-year period which will allow the establishment of capabilities of new cancer researchers or new cancer approaches by established cancer researchers. It is anticipated that this early-stage funding by the Foundation may lead to subsequent and expanded support using government agency funding. Project relevance to cancer detection, treatment, or cure should be clearly identified.
*NEW: Russell Sage Foundation: Core Research Grants
Deadline: April 16, 2024
RSF will accept letters of inquiry (LOIs) under all of its core programs and special initiatives: Behavioral Science and Decision Making in Context; Future of Work; Immigration and Immigrant Integration; Promoting Educational Attainment and Economic Mobility among Racially, Ethnically, and Economically Diverse Groups after the 2023 Supreme Court Decision to Ban Race-Conscious Admissions at Colleges and Universities; Race, Ethnicity and Immigration; Social, Political, and Economic Inequality.

*NEW: JDRF: Strategic Research Agreements
Deadline: May 02, 2024
These agreements provide research funding for single or multiple investigators to address critical gaps and challenges and potential breakthroughs in Type 1 diabetes research. The Strategic Research Agreement is a partnership between Investigator(s) and JDRF Scientists to help address roadblocks and accelerate JDRF’s mission through support of cutting-edge scientific investigation. Further, this mechanism embodies cooperative development of a research plan, interim quarterly reporting on milestones and interaction with JDRF scientists prior to and during the award period. The budget and duration of funding are variable and continued funding is based on satisfactory effort and quarterly progress on milestones. Submission of an application requires permission from JDRF and is initiated with a Project Concept submitted to the JDRF Project Concept Call in RMS360

*NEW: Crohn’s and Colitis Foundation of America, Inc.: Litwin IBD Pioneers Initiative
Deadline: May 6, 2024
This program supports innovative clinical and translational research projects with the potential to impact the treatment of IBD patients in the near future. The program encourages novel research into the diagnosis, identification of clinically relevant subsets, treatments, and cures for inflammatory bowel diseases (IBD) and funds innovative pilot research so that scientists can test their initial ideas and generate preliminary data.

*NEW: Mito Foundation: Mitochondrial Translational Research Grants
Deadline: March 15, 2024
This award seeks to support high-quality pre-clinical and clinical studies with clear translational potential to advance therapies through later-stage clinical testing, regulatory review, and commercialisation. Research must be focused on primary mitochondrial disease. Pre-clinical and clinical studies with strong preliminary data and clear translational potential will be considered. Fundamental research studies focused on understanding disease mechanisms are not eligible for this funding opportunity.

*NEW: Mito Foundation: Project Grants
Deadline: March 15, 2024
The objective of Mito Foundation Project Grants is to boost high-quality research into primary mitochondrial disease that does not fit into one of our prescribed funding mechanisms.

The Mark Foundation: Endeavor Awards
Deadline: March 12, 2024
These awards support collaborative research projects that bring together investigators with diverse areas of expertise to tackle challenges in the prevention, diagnosis, and treatment of cancer. These grants are awarded to teams of three or more investigators to generate and integrate data from diverse lines of
research and transform those insights into advances for cancer patients that could not be achieved by individual efforts.

*NEW: NSF: Faculty Early Career Development Program (CAREER)  
Deadline: July 24, 2024

*NEW: NSF: Division of Molecular and Cellular Biosciences Core Programs  
Deadline: Proposals accepted anytime

*NEW: NSF: Established Program to Stimulate Competitive Research (EPSCoR): Workshop Opportunities  
Deadline: Rolling

*NEW: HHS: Centers for Disease Control - NCHHSTP Epidemiologic and Economic Modeling for HIV, Viral Hepatitis, STD, and TB  
Deadline: April 08, 2024

*NEW: HHS: Agency for Health Care Research and Quality AHRQ, Small Health Services Research Grant Program (R03)  
Deadline: July 17, 2029

*NEW: HHS: Agency for Health Care Research and Quality AHRQ Health Services Research Projects (R01)  
Deadline: July 6, 2024

*NEW: HHS: Agency for Health Care Research and Quality AHRQ Health Services Research Demonstration and Dissemination Grants (R18)  
Deadline: May 26, 2029

National Institutes of Health

*NEW: NIH: AHRQ Health Services Research Demonstration and Dissemination Grants (R18)  
Expires: 5/26/2029

*NEW: NIH: AHRQ Small Health Services Research Grant Program (R03)  
Expires: 7/17/2029

*NEW: NIH: AHRQ Health Services Research Projects (R01)  
Expires: 7/6/2029

*NEW: NIH: NIA Career Transition Award (K22 Independent Clinical Trial Not Allowed)  
Expires: 11/12/2025

*NEW: NIH: The NCI Transition Career Development Award (K22 Independent Clinical Trial Optional)  
Expires: 3/12/2027

*NEW: NIH: NIDCD's Mentored Research Education Pathway for Otolaryngology Residents and Medical Students (R25 - Clinical Trial Not Allowed)  
Expires: 9/29/2026
*NEW: NIH: NIDCD Research Career Enhancement Award for Established Investigators (K18 Clinical Trial Not Allowed)
Expires: 5/7/2027

*NEW: NIH: NIDCD Research Career Enhancement Award for Established Investigators (K18 Independent Basic Experimental Studies with Humans Required)
Expires: 5/7/2027

*NEW: NIH: NIDCD Research Career Enhancement Award for Established Investigators (K18 Clinical Trial Required)
Expires: 5/7/2027

*NEW: NIH: Advancing Learning Health Care Research in Outpatient Mental Health Treatment Settings (R34 Clinical Trial Optional)
Expires: 1/7/2026

*NEW: NIH: Natural Product Multi-Site Clinical Trial Data Coordinating Center (Collaborative U24 Clinical Trial Required)
Expires: 7/14/2026

*NEW: NIH: Investigating Distinct and Overlapping Mechanisms in TDP-43 Proteinopathies, including in LATE, FTD and other ADRDs (R01 - Clinical Trial Not Allowed)
Expires: 10/4/2024

*NEW: NIH: Mechanistic Investigations into ADRD Multiple Etiology Dementias (R01 - Clinical Trial Not Allowed)
Expires: 10/4/2024

*NEW: NIH: Limited Competition: Collaborative Study on the Genetics of Alcoholism (COGA) (U10 Clinical Trial Not Allowed)
Expires: 3/17/2024

*NEW: NIH: Open Measurement Coordinating Network for Non-Pharmacological Alzheimer’s Disease (AD) and AD-Related Dementias (ADRD) Primary Prevention Trials (U24 Clinical Trial Not Allowed)
Expires: 6/15/2024

*NEW: NIH: Multi-Scale Models Bridging Levels of Analysis in Aging and Alzheimer’s Disease (AD) and AD-Related Dementias (ADRD) (R01 Clinical Trial Not Allowed)
Expires: 6/13/2024

*NEW: NIH: Drug Development Tools Research Grants (U01) Clinical Trials Optional
Expires: 5/13/2025

Previously Announced Internal and Limited Submission Opportunities
See the Funding Announcement Archive for a list of ALL previously announced opportunities.

Internal: William F. Milton Fund: Medicine/Science and Generative AI Awards
Deadline: April 1, 2024
Internal – Harvard Global Health Initiative: Burke Global Health Fellowship
Deadline: March 8, 2024

Limited Submission - Pediatric Cancer Research Foundation (PCRF): Grants
Sponsor deadline: March 1, 2024

Limited Submission - Innovations in Graduate Education, NSF 24-529
Deadline: February 26, 2024

Limited Submission – Government of Canada/Convergence Finance: Gender-Responsive Climate Finance Window
Sponsor deadline: August 30, 2024

Limited Submission: Breast Cancer Alliance: Exceptional Projects Grants
Sponsor deadline: March 31, 2024

Limited Submission: Breast Cancer Alliance: Young Investigator Grants
Sponsor deadline: March 31, 2024

Limited Submission - NIH: Assessment of Climate at Institutions (ACt) Award (RC2 - Clinical Trial Not Allowed)
Sponsor deadline: February 20, 2026

Limited Submission - NIH: Native American Research Centers for Health (NARCH) Planning Grants (R34 - Clinical Trial Not Allowed)
Sponsor deadline: July 8, 2024; July 8, 2025; July 8, 2026

Limited Submission - NIH: Nursing Research Education Program in Firearm Injury Prevention Research: Short Courses (R25 Independent Clinical Trial Not Allowed)
Sponsor deadline: May 25, 2026

Limited Submission - NIH: National Project to Support and Promote Consistent Implementation of the Regulatory Standards for the Growing, Harvesting, Packing and Holding of Produce for Human Consumption and Produce Regulatory Standards (PRPS) (U2F) -Cooperative Agreements
Sponsor deadline: June 10, 2024

Limited Submission - Campbell Foundation HIV/AIDS research grants
Sponsor deadline: LOIs are accepted in January, April, July and October of each year.

Limited Submission - NIH: NCI Pathway to Independence Award for Early-Stage Postdoctoral Researchers (K99/R00 - Independent Clinical Trial Required)
Sponsor deadlines: June 14, 2024, October 15, 2024, February 14, 2025, June 16, 2025, October 14, 2025, February 17, 2026, June 15, 2026, October 14, 2026

Limited Submission - NIH: NCI Pathway to Independence Award for Early-Stage Postdoctoral Researchers (K99/R00 - Independent Clinical Trial Not Allowed)
Sponsor deadlines: June 14, 2024, October 15, 2024, February 14, 2025, June 16, 2025, October 14, 2025, February 17, 2026, June 15, 2026, October 14, 2026

**Limited Submission: NIH: Silvio O. Conte Digestive Diseases Research Core Centers (P30 Clinical Trial Optional)**
Sponsor deadline: February 22, 2024, October 23, 2024

**Limited Submission - NIH: Single Source for continuation of the Human Pancreas Analysis Program for Type-2 Diabetes (HPAP-T2D) (U01 Clinical Trial Not Allowed)**
Sponsor deadline: February 28, 2024

**Limited Submission - NIH: Advancing Research Careers (ARC) Institutionally-Focused Research Education Award to Promote Diversity (UE5 - Clinical Trial Not Allowed)**
Sponsor deadline: January 29, 2025, January 29, 2026

**Limited Submission - NIH: Mechanistic Research on Neuromodulation for Substance Use Disorders Treatment (R61/R33 Clinical Trial Optional)**
Sponsor deadline: August 14, 2024, January 16, 2025, August 14, 2025, January 16, 2026, August 14, 2026

**Limited Submission - STRenewing Research Opportunities for NIH Grants (STRONG): Structured Institutional Needs Assessment and Action Plan Development for Resource Limited Institutions (RLIs) (UC2 - Clinical Trial Not Allowed)**
Sponsor deadlines: September 18, 2025

**Internal: The Harvard China Fund: Reengage with China Grant**
Deadline: Rolling

**Internal Funding: The Harvard Data Science Initiative Faculty Special Projects Fund**
Deadline: Applications accepted throughout the year.

**Internal Funding: Harvard’s Solar Geoengineering Research Program**
Deadline: Applications accepted on a rolling basis.
