## 2nd Kolokotrones Workshop on Data Science
*so much data, so little time*

Co-sponsored by the HSPH Program on Causal Inference and
Boston University School of Public Health Department of Epidemiology

HARVARD
T.H. CHAN
SCHOOL OF PUBLIC HEALTH

# Crowdsourcing Causal Graphs
## *A hackathon for causal DAGs*

Heard about causal graphs or DAGs and curious to know more? Join us for a collaborative, hands-on exercise in building causal graphs! Using an example from psychiatric epidemiology, this workshop will provide a practical tutorial on summarizing expert knowledge into a causal graph and using that graph to think about study design and analyses. No prior experience with causal graphs or psychiatric epidemiology required.

## Workshop facilitated by
## Eleanor Murray, Jaimie Gradus & Matthew Fox
## Hosted by Sonia Hernandez-Diaz

Friday, December 7, 2018 | 3:45-5:15pm

261 Tosteson Medical Education Center - 2nd Floor Atrium

Open to anyone interested in data science. Snacks will be available.

RSVP at hsph.harvard.edu/causal/kolokotrones
