ACA's impact on jobs ignites debate

HSPH faculty say that it's important to focus not only on the potential economic impact of the health reform law but also on its emphasis on lower costs and greater efficiency in the health care system. Listen to a podcast with Professor [Katherine Baicker](#).

Fixing a broken health care system

[Ashish Jha](#), professor of health policy, shares his thoughts in this video on what he refers to as "probably the most dangerous place in the world for a human being—an American hospital."

Harmful, untested chemicals rife in personal care products

Few chemicals in cosmetics have been tested for safety, environmental health advocate Mia Davis recently told an HSPH audience.

Research news

Darnell Strom, an executive at the CAA Foundation, spoke at HSPH about the influence TV and movies can have on public's views on health.

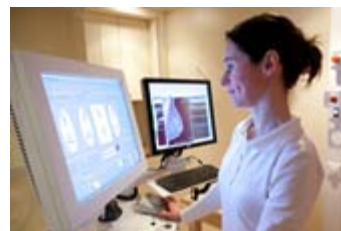

[Battling drug resistant superbugs](#)

This *Forum* event examined the public health menace posed by antimicrobial resistance and the steps needed to fight the superbugs.

[Cancer a daunting challenge for poor countries](#)

More than half of new cancer cases occur in low- and middle-income countries, as do nearly two-thirds of cancer deaths. Experts at a global oncology symposium held February 8, 2014 at Dana-Farber Cancer Institute discussed the substantial barriers to care faced by cancer patients in developing countries.
