Strong carbon emission standards for power plants would improve air quality

A new study maps potential environmental health benefits of power plant carbon standards, coinciding with the U.S. Environmental Protection Agency's new proposed carbon standards for power plants.

'Make the impossible possible,' graduates told

Relive HSPH's Centennial Commencement, held May 29, through photos, video, and speaker transcripts. And see which students, faculty, and staff received [awards](#) at the festive Commencement eve ceremony.

'I grew up with no health insurance'

In the latest installment of the "Why Public Health?" video series, doctoral student Anthony Covarrubias talks about his determination to tackle obesity and diabetes from a molecular level.
