## An emergency within an emergency

### Passionate pursuits

Pedro Lamothe-Molina, PhD '17, hopes to continue researching infectious diseases while taking care of patients and racing the occasional triathlon.

### Statisticians lend critical expertise to infectious disease research

There's been major progress in HIV treatment over the past few decades—thanks in part to a group of statisticians and epidemiologists at Harvard Chan School.

### Finance ministers convene for annual forum

Finance ministers from Africa and Latin America heard about the importance of inclusive and responsive governing institutions during the fifth annual Harvard Ministerial Leadership Forum for Finance Ministers.

### Conference explores future of health in Southeast Asia

Achieving universal health coverage, mental health

resilience following disasters, and health care technology were among the topics discussed at the April 28 event.

In our latest podcast: A new report finds refugee and migrant children in Greece are turning to prostitution to escape dangerous conditions.

---

## Around the School

### Poster Day features work of students, postdocs, researchers

Research from 74 students, postdocs, and research associates was on display at the third annual Harvard Chan Poster Day. More than 200

people filled Kresge cafeteria to learn about research on topics ranging from the health of Roma women in Marseille to end-of-life care conversations in Delhi to cancer risk and mortality in Reykjavik.

### Field Day 2017

Each year Field Day, hosted by the Office for Student Affairs, gives soon-to-be graduates a chance to show off their mastery of events such as the water balloon toss, potato sack race, and jump roping. See more photos on [our Facebook page](#).

### Panel offers tips on translating research into action

How can scientists turn their research into action? Four faculty members from Harvard Chan School shared advice from their careers during a panel discussion.
