Chinese high schoolers have 'mind-blowing' public health learning experience

A group of 70 high school students from top Chinese high schools learned about some of the hotly debated health issues in China during a recent three-day event led by Harvard Chan faculty and postdocs.

Listen: Responding to terrorism

In our latest podcast: As the U.S. marked the 15th anniversary of the 9/11 attacks, we examined

Around the School

Harvard Longwood bike fair

On Wednesday, Sept. 21, bring your bike to the Harvard Medical School Quad for free basic tune-ups, classes on maintenance and safety, and fun giveaways. The bike fair runs from 11:30 AM-1:30 PM.

Data science seminar series

Co-organized by the Department of Biostatistics at Harvard Chan School and the Department of Biomedical Informatics at Harvard Medical School, the Data Science in Longwood seminar is a series of research talks on statistical, computational, and machine learning methods for analyzing large complex data sets, with a focus on applications in biomedical science and public health. The series begins Monday, Sept. 19, in Countway Library, room 518.
