

## Video: *Imagine a Healthier World*

Watch a new video looking at some of the cutting-edge work being done by Harvard School of Public Health nutrition researchers to help people everywhere live healthier lives. See how their efforts are changing our very understanding of what's healthy--and what's not. The video screened at the May 22 [Healthy Cup Award](#) ceremony honoring renowned chef, author, and real-food activist Jamie Oliver. [Watch video](#)

## Videos: Healthy Cup Award ceremony

See and hear Jamie Oliver, who won the Healthy Cup Award from HSPH's Nutrition Roundtable.

[HSPH Dean Julio Frenk and Walter Willett, chair of the HSPH Department of Nutrition, deliver opening remarks.](#)

[Jamie Oliver receives the Healthy Cup.](#) In his acceptance speech, Oliver stresses the need to teach children and families how to grow their own food, cook from scratch, avoid processed food, and better understand where food comes from and what's in it.

[Jamie Oliver answers questions from the audience.](#)

## Summer is here! Have fun, save \$\$

Check out Harvard's [Outings & Innings](#) site for discounted tickets to Red Sox games, movies, amusement parks, zoos, the Provincetown Fast Ferry, and special events, including Taste of Cambridge.

[Some HDL, or "good" cholesterol, may not protect against heart disease](#) (HSPH release)

[Chagas disease](#)

[dubbed the new 'AIDS of the Americas'](#) (*New York Times*)

## Around the School

### [Personalized medicine still a long way away, says Cutter lecture speaker](#)

Guest speaker Margaret Spitz told the audience at HSPH's 155th Cutter Lecture on Preventative Medicine that the future of cancer epidemiology lies not only in the genetics laboratory but also in the rigorously designed population study--and in getting researchers

in both camps to work together.

### [Bernard Lown honored by \*British Medical Journal\*](#)

Bernard Lown, HSPH *professor emeritus*, received a Lifetime Achievement Award at the *British Medical Journal* Group Improving Health Awards on May 23 in London.

### **Faculty promotion**

[Xiaole Shirley Liu](#) has been promoted to professor of biostatistics and computational biology at HSPH and the Dana-Farber Cancer Institute.

### [HSPH faculty teaching more undergraduate global health courses as demand grows](#)

"We felt there was an unmet need and certainly a high interest among the undergraduate students to learn about the concepts of nutrition and how that relates to global health," [Christopher Duggan](#), associate professor in the Department of Nutrition, said in a recent *Harvard Crimson* article.

### [Lagakos Distinguished Alumni Award recipient announced](#)

The Department of Biostatistics will award the inaugural Lagakos Distinguished Alumni Award to [Melissa D. Begg](#), ScD '89, professor of clinical biostatistics and vice dean of education at the Columbia University Mailman School of Public Health and co-director of the Irving Institute for Clinical and Translational Research. Begg will deliver a lecture and be presented with the award on September 28, 2012, preceding [HSPH Alumni Weekend 2012: Women and Health](#).
