

INTEGRATION IN PURSUIT OF QUALITY AND EQUITY

September 2014

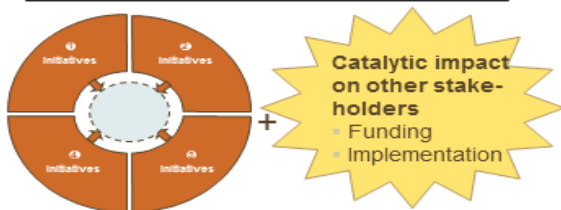

Mariam Claeson

MATERNAL, NEWBORN DEATH AND STILLBIRTH ALL PEAK AT THE SAME TIME IN THE SAME LOCATION

GATES FOUNDATION MODEL OF IMPACT FOR M&N

A Initiatives

Initiatives and catalytic impact will target interactions between families and frontline workers

- 1 Discover, develop and introduce new or adapted interventions (technologies, tools and treatments)
- 2 Shape demand and improve health practices
- 3 Enhance frontline worker capabilities and performance
- 4 Advocate for conducive policy and program environment

B Interactions

Interactions between families and frontline workers will be enhanced to be

- More
- Better
- Efficient
- Equitable

C Coverage of interventions

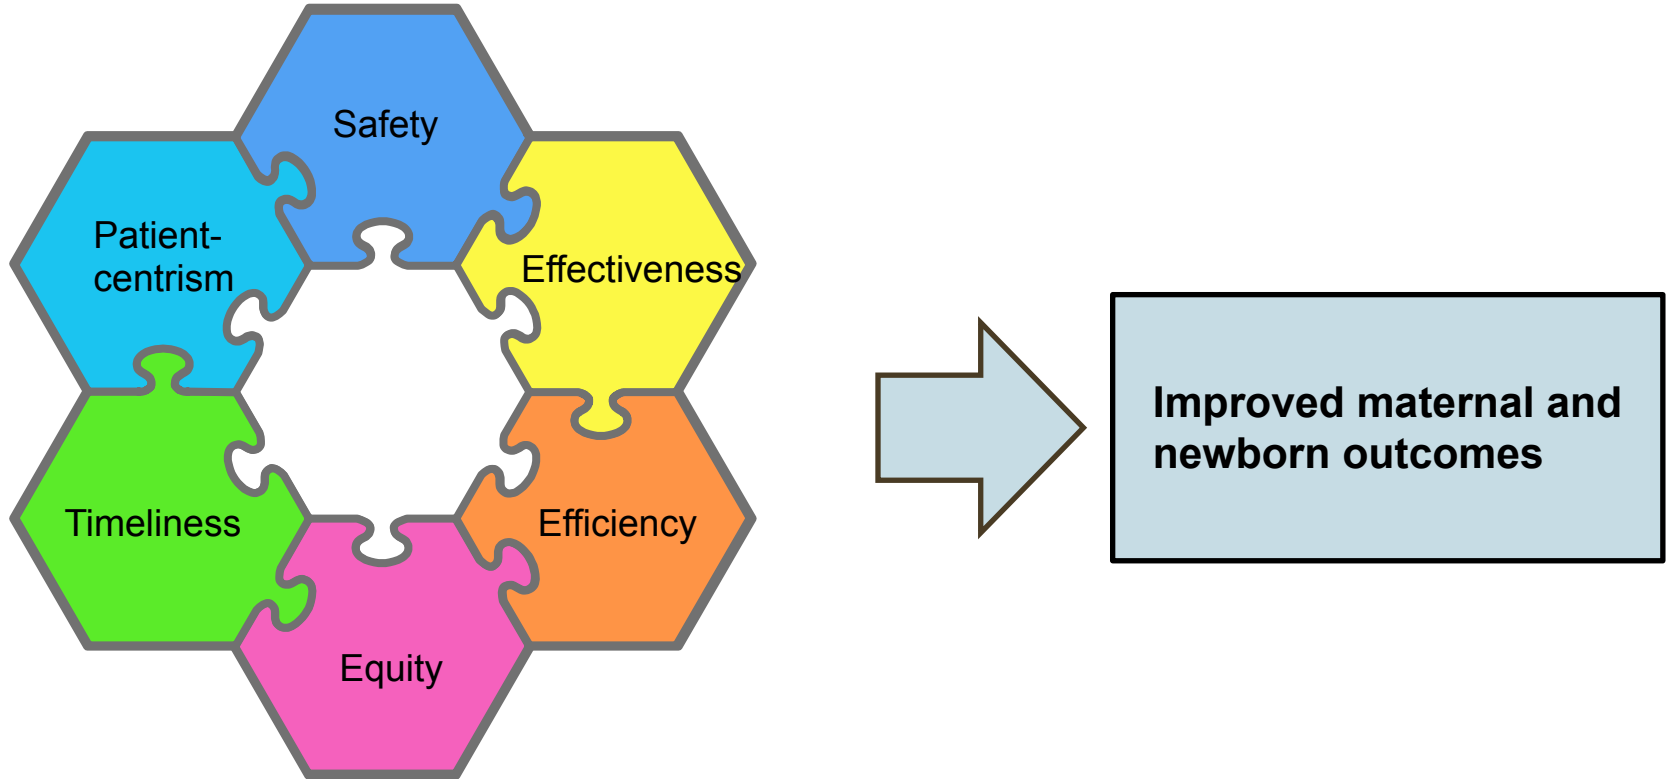

Coverage of critical interventions will be increased to address the critical conditions in newborns and mothers

D Mortality

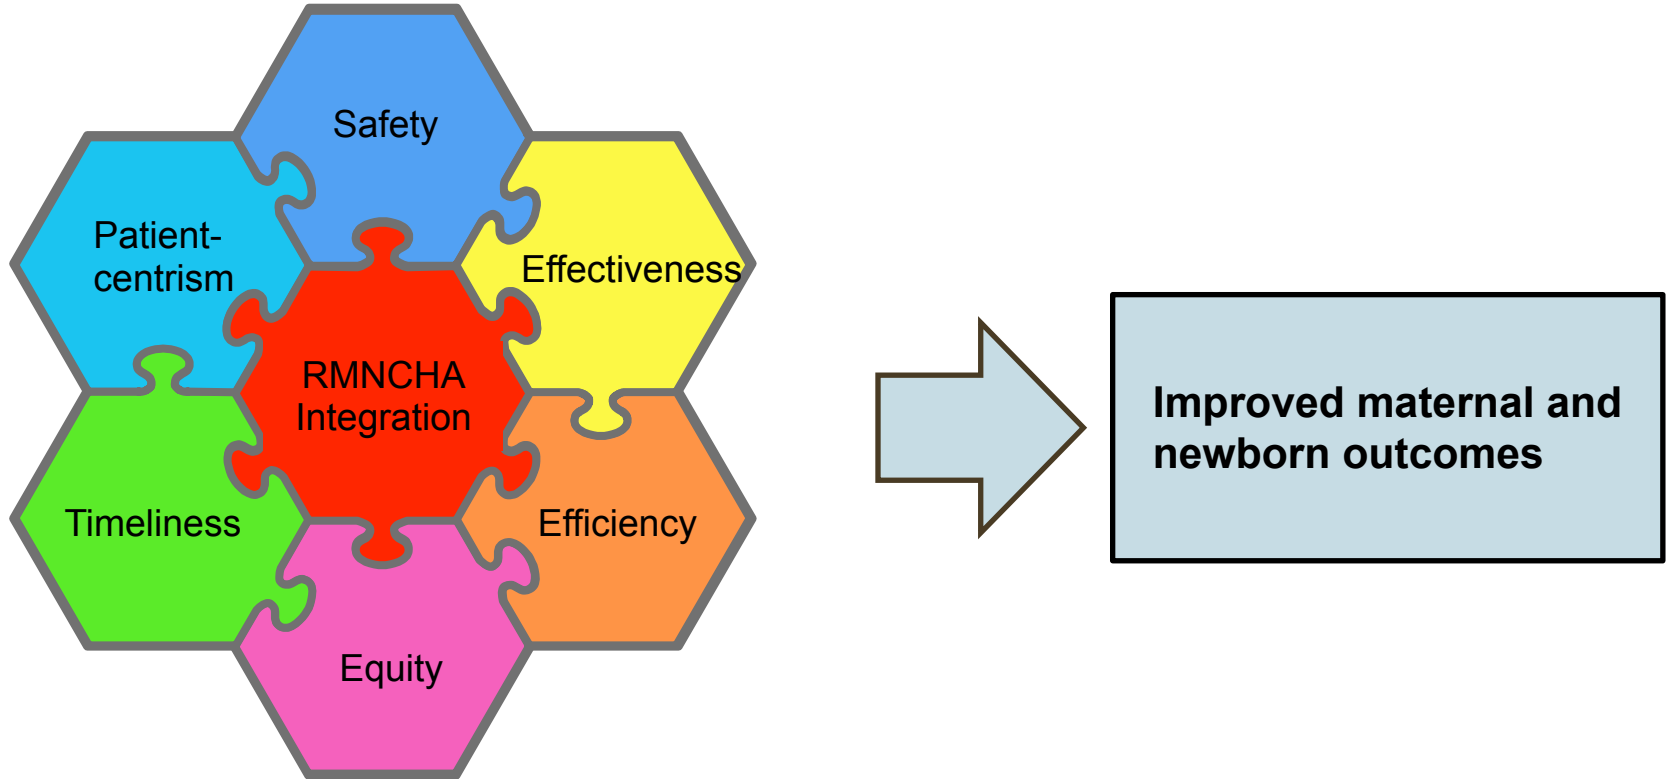

Mortality among newborns and mothers will be reduced to accelerate progress towards MDGs 4 and 5

QUALITY IMPROVEMENT REQUIRES SIX DOMAINS TO IMPROVE OUTCOMES

INTEGRATION ACROSS THE RMNCHA SPECTRUM IMPROVES EACH COMPONENT, IMPROVING OUTCOMES

TOWARDS A USER CENTRIC PERSPECTIVE

WHAT WORKS FOR THE FAMILY?

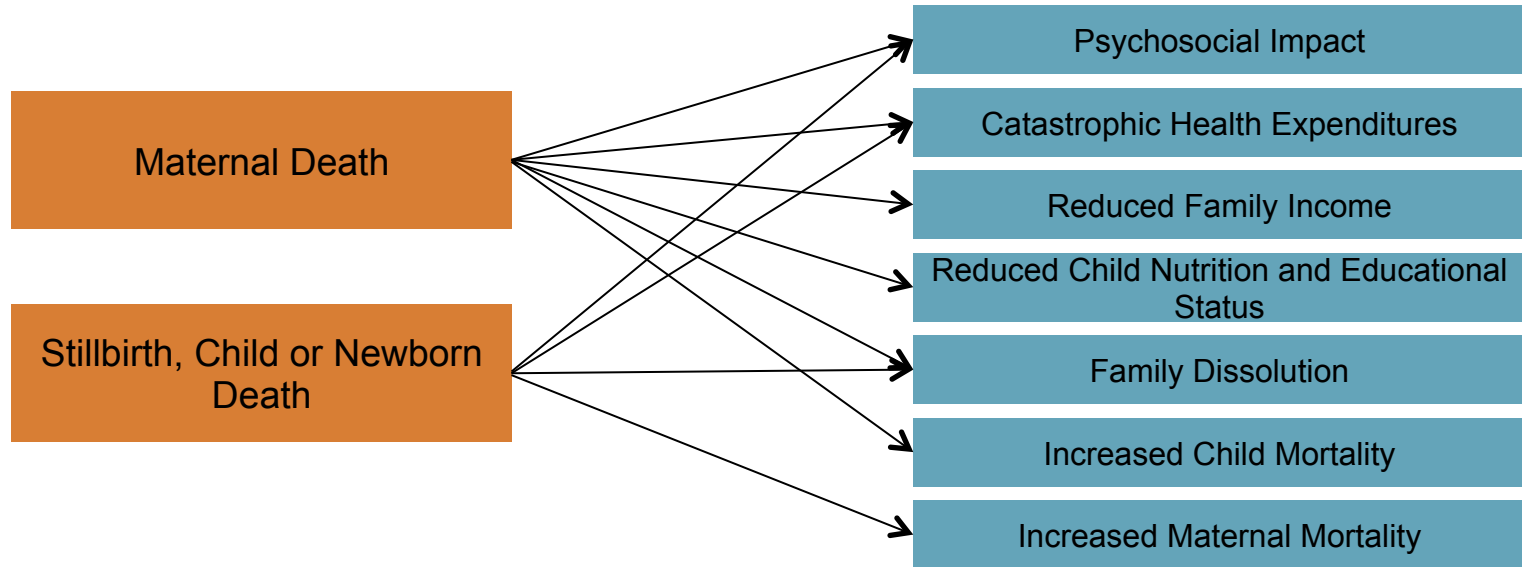

When family planning, child immunizations, and HIV services are all offered from different providers in different locations, not all families can keep up.

Poor families suffer disproportionately from lack of integration.

FLORENCE NGOBENI-ALLEN ON INTEGRATION FOR QUALITY IMPROVEMENT AT THE PMNCH FORUM, JOHANNESBURG 2014

EVIDENCE SHOWS THAT DEATH OF A MOTHER, NEWBORN, OR CHILD OFTEN DESTABILIZES A FAMILY UNIT WITH OUTCOMES BEYOND MORTALITY

Integration in pursuit of quality and equity

How do we walk the talk?
