### [Internal Funding – The Harvard Data Science Initiative Competitive Research Fund](#)

Application Deadline: April 3, 2017

The goal of the Data Science Initiative Competitive Research Fund is to support research that advances Data Science at Harvard in new ways. Data Science is an emerging discipline, with its roots in computer science and statistics, an immense range of applications, and the potential, done right, to change our understanding of many problems in the sciences, humanities, and society more broadly. It is about both the science of data and science through data, and is about closing this loop so that methodological innovation is driven through new challenge applications. This call invites innovative ideas whose interests span all areas of Data Science, including methodological foundations, as well as the development of quantitative methods and tools motivated by Data Science challenges.

### [Internal Funding – HILT: 2017 Spark Grant for Collaboration, Research, and Engagement](#)

Application Deadline: April 5, 2017 (application portal opens March 1)

Through modest but meaningful support, these grants for up to 15K are designed to help “spark” promising teaching and learning projects from idea to reality and position innovations for future success. Funding can be used in various ways; for example, to pay for a research assistant, hire a graduate student with academic technology expertise, or convene collaborative groups. Through Spark Grants, awardees will receive resources, feedback, and community support to help them develop their ideas into prototypes, pilots, and small-scale innovations. HILT will also strive to support any future scaling-up of Spark Grant projects by increasing their visibility and connecting awardees and project outcomes with others in the broader Harvard community.

### [Internal Funding – Harvard Data Science Postdoctoral Fellowship](#)

Application Deadline: Candidates are encouraged to apply by February 3, 2017, but applications will continue to be reviewed until the positions are filled.

The Harvard University Data Science Initiative is seeking applications for its inaugural Harvard Data Science Postdoctoral Fellows Program for the 2017-2018 academic year. The normal duration of the Fellowship is two years. Fellows will receive a generous salary as well as an annual allocation for research and travel expenses. We are looking for researchers whose interests are in data science, broadly construed, and including researchers with both a methodological and applications focus. Fellows will be provided with the opportunity to pursue their research agenda in an intellectually vibrant environment with ample mentorship. We are looking for independent researchers who will seek out collaborations with other fellows and with Harvard faculty.

#### [Harvard Chan School Internal Funding – McLennan Family Fund: Dean’s Challenge Grant Program](#)

Application Deadline: March 22, 2017 at 5:00pm

The Harvard T.H. Chan School of Public Health Dean’s Challenge Grant Program is sponsored through generous funding from the McLennan Family Fund and will support strategic investments that foster rapid innovation and advance our shared vision for a stronger, more dynamic, and more globally-engaged school. Each year, the Dean will identify a set of global health issues that will be key priorities in the selection and award of challenge grants. The topics will be targeted to attract proposals from a variety of faculty across departments, resulting in cross-cutting, multidisciplinary approaches to addressing public health issues of top priority. This year, two priority topics have been identified: (1) **Aging and Longevity**, and (2) **Mental Health & Well-being**.
