

Student Exchanges at St. John's Research Institute (SJRI), Bangalore, India

HSPH - SJRI NUTRITION INITIATIVE

The Department of Nutrition at HSPH, in collaboration with the Department of Nutrition at SJRI, supports both short-term faculty and graduate student exchanges between HSPH and SJRI.

The anticipated benefits of the exchanges include:

- fostering a deeper academic relationship between HSPH and SJRI by faculty and student exchanges
- the acquisition of public health research skills in numerous disciplines by Indian and HSPH graduate students

We now announce the availability of an 8-10 week summer 2016 research internship at St John's Research Institute in Bangalore for HPSH students. Economy RT airfare, per diem and housing costs will be provided.

Successful applicants will identify SJRI faculty with whom they will collaborate on ongoing or newly proposed research. Candidates should submit by March 20, 2016 to sdean@hsph.harvard.edu

- NIH format biosketch
- One page description of proposed work in Bangalore

All applications are reviewed by the HSPH SJRI Executive Committee.

See <http://www.hsph.harvard.edu/nutrition/harvard-india-nutrition-initiative/> for a description of the program and list of HSPH faculty members, and <http://www.sjri.res.in> for a description of SJRI and list of ongoing research faculty there.
